ImmTrac, the Texas immunization registry, is a free service of the Texas Department of State Health Services (DSHS). The immunization registry is a secure and confidential service that consolidates and stores your child's (under 18 years of age) immunization records. With your consent, your child's immunization information will be included in ImmTrac. Doctors, public health departments, schools and other authorized professionals can access your child's immunization history to ensure that important vaccines are not missed.

The Texas Department of State Health Services encourages your voluntary participation in the Texas immunization registry.

Consent for Registration of Child and Release of Immunization Records to Authorized Entities

I understand that, by granting the consent below, I am authorizing release of the child's immunization information to DSHS and I further understand that DSHS will include this information in the state's central immunization registry ("ImmTrac"). - a public health district or local health department, for public health purposes within their areas of jurisdiction;
- a physician, or other health-care provider legally authorized to administer vaccines, for treating the child as a patient;
- a state agency having legal custody of the child;
- a Texas school or child-care facility in which the child is enrolled;
- a payor, currently authorized by the Texas Department of Insurance to operate in Texas, regarding coverage for the child.

I understand that I may withdraw this consent to include information on my child in the ImmTrac Registry and my consent to release information from the Registry at any time by written communication to the Texas Department of State Health Services, ImmTrac Group – MC 1946, P.O. Box 149347, Austin, Texas 78714-9347.

The deputized provider must have a written agreement with an FQHC or an RHC and the state, local, or territorial immunization program in order to vaccinate underinsured children.*

*** Other underinsured are children that are underinsured but are not eligible to receive federal vaccine through the TVFC Program because the provider or facility is not an FQHC or an RHC, or a deputized provider. However, these children may be served if vaccines are provided by the state program to cover these non-TVFC eligible children.*

**** Children enrolled in separate state Children's Health Insurance Program (CHIP). These children are considered insured and are not eligible for vaccines through the VFC Program. Each state provides specific guidance on how CHIP vaccine is purchased and administered through participating providers.*
