

Documenting lab results

1. All internal notes for lab results should be documented in the internal notes section by clicking the “Add Notes” button. Ex: Okay to wait for PCP?

The screenshot shows a web-based interface for lab results. At the top, the patient's status is 'Open' and 'Reviewed'. Patient information includes name 'Test, Test', DOB '9/30/2017', age '3Y 5M', sex 'M', and contact info. The provider is 'Choe, Caleb S' and the facility is 'Blue Fish - Cypress'. The lab information section shows the test 'CBC (INCLUDES DIFF/PLT)' ordered on 3/12/2021 and collected on 3/26/2021. Below this is a table of results with columns for Order Date, Coll. Date, CBC MORI, PLATELET, WHITE BU, RED BLOC, HEMOGL, HEMATOC, and MCV. The 'Internal Notes' section is highlighted with a red box, showing an 'Add Notes' button.

Order Date	Coll. Date	CBC MORI	PLATELET	WHITE BU	RED BLOC	HEMOGL	HEMATOC	MCV
03/12/2021								
11/19/2020								

2. Once you click “Add Notes”, then timestamp and type the documentation.

This screenshot shows the same interface as above, but with a dialog box open for adding internal notes. The dialog box title is 'Internal Notes for CBC (INCLUDES DIFF/PLT)'. It contains a text area with the text 'Delgado, Lavella, MA 3/26/2021 3:32:08 PM >'. The dialog box has buttons for 'Timestamp', 'Browse', 'Add', and 'Check Spelling'. The 'Add Notes' button in the main interface is also highlighted with a red box.

3. Once the doctor is ready to publish to the patient portal, then they will timestamp in the “Notes” section and documents what they want the parent to see.
