Re: Adolescent questionnaire

Question #9 on the adolescent questionnaire has been separated into 2 questions.

- 9. Thoughts of hurting yourself
- 10. Thoughts that you would be better off dead

The MAs will take the highest score from these two questions and add it to the total score.

In the example below, you will not add the 1 from question #9 to the total score, just the 3 for question #10.

8. Moving or speaking so slowly that other people could have noticed. Or the opposite being so figety or restless that you have been moving around a lot more than usual	0	1	2	3
9. Thoughts of hurting yourself	0	1	2	3
10. Thoughts that you would be better off dead	0	1	2	3

add columns + +

(Healthcare professional: For interpretation of TOTAL, please refer to accompanying scoring card). TOTAL:
