Texas Vaccines for Children (TVFC) Disclaimer

As a service to our patients, our office participates in the Vaccines For Children (VFC) program, which provides vaccines at no charge for those patients who meet the program's eligibility requirements.*

A patient who meets any one of the following requirements is eligible and automatically **qualifies** for the VFC program:

- is enrolled in Medicaid
- is enrolled in Children's Health Insurance Plan (CHIP)
- does not have health insurance
- is underinsured (has health insurance that DOES NOT pay for vaccines**)
- is an American Indian
- is an Alaskan Native

** Overseas travelers insurance policy holders (e.g. AIU) are considered underinsured.

Please be aware that if your child does not meet the VFC requirements and your insurance does not cover the cost of the vaccination(s), you will be responsible for payment.

Disclaimer

If there is a change in health insurance and the eligibility of the patient changes please inform the front office staff.

I have read and understood the VFC information above and acknowledge whether or not my child qualifies for the TVFC program based on the requirements listed above.
